

# Advances in Cleaner Production Network

Boosting Knowledge Exchange Seeking Sustainability

---

## DECLARATION

We hereby declare, for all due purposes, that the Laboratory of Emergy and Ecosystem Resilience (LERE) has been a member of the Advances in Cleaner Production Network since 2023, actively contributing to the advancement of scientific and technological knowledge in the field of cleaner production.

LERE has been developing highly relevant research projects, with emphasis on the Plastic Oceans Project: Monitoring the plastic production chain by integrating disposal and recycling strategies to tackle pollution, registered under Process No. 405449/2022-4 and submitted to the CNPq/MCTI-FNDCT CT-Petro Call No. 43/2022 – Networks for Monitoring the Plastic Production Chain, including Disposal and Recycling.

We issue this declaration to certify LERE's participation and commitment to global impact initiatives aimed at promoting sustainability and combating plastic pollution.

Sincerely,

Prof. Biagio F. Giannetti

ACPN – Advances in Cleaner Production Network
